## Hoover Thinks His Own Vote Was Simply Remarkable

### Wilson Tries to Coerce the Senate Knox Says

(By Associated Press) WASHINGTON, May 5.—Opening the debate on the resolution to declare the state of war with Germany and Austria at the end, Senator Knox, Republican, declared in the senate that President Wilson is arbitrarily maintaining that this nation technically was at war in order to coerce the senate into ratifying the treaty of Versailles. "There is no excuse whatever for greatly prolonging the war beyond the signing of the armistice and the only explanation for so doing was the deliberate aim to retain all of those autocratic compulsory powers with which the executive had been endowed," Senator Knox said.

### SINKING SHAFT ON ARROWHEAD

High values have not ceased at the Arrowhead mine although little has been said about stopping operations during the past month. An illustration of the values was found in the west ore shoot above the second level two days ago when one man in a shaft knocked down fifteen sacks of gold that returned \$756.45 to the ton. The values were divided 4.02 oz gold and 614.50 oz silver. The company is going ahead sinking the shaft for a distance of either 50 or 100 feet, the depth to be determined by conditions. The contract for this work was awarded yesterday to Wesley Ellis who will proceed with two shifts. Mr. Ellis was not the lowest bidder but President Johns regarded him as the most reliable of those offering to do the work.

### ARROWHEAD PRESIDENT HIKES TEN MILES AT NIGHT

Judge R. L. Johns, president of the Arrowhead Mining company, had a little pedestrian exercise last night without having had a chance to get into training. He was headed for Tonopah when his car ran out of gas and the judge concluded the best thing to do was to hoof it for Salisbury Wash, a distance of ten miles. He did not time himself on the journey and does not think he broke any records. When Johns failed to arrive early in the evening Dr. Elftman sent Ralph Wardle out with a relief car which picked up the weary mine operator.

### WESTERN MAN HEADS BUREAU OF MINES

(By Associated Press) WASHINGTON, May 5.—Fredrick Cottrell of Oakland, Calif., was nominated today by President Wilson to be director of the bureau of mines succeeding Mr. Van Manning who resigned.

The appointee is one of the best known scientists in the mining world and ideally apodict for the position to which he has been appointed. Dr. Cottrell derives a very large royalty from the use of his electrolytic process for the precipitation of fumes from smelter stacks.

The deed transferring R. G. Ward's eighteen mining claims on Treasure hill at Hamilton to the Eureka-Hamilton Mines company was filed in the office of J. O. McKernan, county recorder, consummating one of the most important mining deals made in White Pine county for several years. Documentary stamps attached showed the consideration as being at least \$75,000, there being \$75 worth of the stamps affixed. The deed was filed at the request of the First National Bank of Ely. This indicates that the option filed a few days ago has been taken up by Thomas J. Lynch and Julius Goldsmith of Tonopah.—Ely Times

### UNLOAD BURDEN ON UNCLE SAM

(By Associated Press) WASHINGTON, May 5.—Not content with an effort to impose on the United States the task of taking a mandate for Armenia, it seems there is now once more about among certain of the allies a renewal of the scheme to pool the war debt.

Such a pooling of the war debt was up in the Paris conference. Had this country become entangled in the league on the terms President Wilson desired, there can be little question that strenuous efforts would have been made before this to foist additional financial burdens on the United States.

Cables say the plan of pooling the war debt will again be urged at the May meeting of the league.

### MOUSE TRAPS FOR BIG GAME

(By Associated Press) WASHINGTON, May 4.—According to Representative Lemport Attorney General Palmer is not a big animal hunter. The Congressman explained to the House that the reason Mr. Palmer never got after a big profiteer was that he was setting a few mouse traps around the country where he ought to be using bear traps. That was why a little merchant in New York was arrested for making 50 per cent profit on an overcoat while if one millionaire profiteer was sent to prison under laws that exist it would do more to stop profiteering than all the excuses and protests made regarding it.
